No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without the prior permission of the publisher, Elsevier Science Publishers B.V. (North-Holland), P.O. Box 1991, 1000 BZ Amsterdam, The Netherlands.

Special regulations for authors – Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.

Submission of an article entails the author's irrevocable and exclusive authorization of the publisher to collect any sums or considerations for copying or reproduction payable by third parties (as mentioned in article 17 paragraph 2 of the Dutch Copyright Act of 1912 and in the Royal Decree of June 20, 1974 (S.351) pursuant to article 16b of the Dutch Copyright Act of 1912) and/or to act in or out of Court in connection therewith.

Special regulations for readers in the U.S.A. – This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970, U.S.A. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1981 may be copied for a per-copy fee of US $2.25, also payable through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the publisher for such copying.

BUTORS

o one of the Editors. All manuscripts will be refereed. Manuscripts should preferably be ouble-spaced, first copies (or clear Xerox copies thereof) with a wide margin. Abstracts, o be double-spaced. All pages should be numbered (also those containing references, tables an article, author(s) will be asked to transfer copyright of the article to the publisher. This ssemination of information.

y a summary in English. This should be short, but should mention all essential points of

uitted on separate sheets, drawn in black India ink in large size and carefully lettered (with the details should have proportionate dimensions, so as not to become illegible or unclear general, the figures should be designed for a reduction factor of two or three. Mathematical appropriate. Each figure should have a number and a caption; the captions should be col- e place of a figure should be indicated in the margin. Tables should be typed on separate id a title. The appropriate places for the insertion of tables should be indicated in the mar-

und typed or clearly written by hand. Symbols should be identified in the margin, where

aper should be made by section (or equation) number, but not by page number. References order in which they appear in the text.

IORS are published in every issue, and copies can also be obtained from the Editors and B.V., P.O. Box 1991, 1000 BZ Amsterdam, The Netherlands.

MECHANICS AND ENGINEERING (ISSN 0045-7825) is published in six volumes (18 1987 (Volumes 60–65) is SFrs. 1710.00 + SFr. 180.00 p.p.h. = SFrs. 1890.00. Our p.p.h. cludes surface delivery of all issues, except to subscribers in the following countries where s ensured: Argentina, Australia, Brazil, Canada, China, Hong Kong, India, Israel, Japan, Singapore, South Africa, South Korea, Taiwan, Thailand, U.S.A. For the rest of the world Claims for missing issues will be honoured free of charge within three months after the and inquiries to: Elsevier Sequoia S.A., P.O. Box 851, CH-1001 Lausanne 1, Switzerland.
